There are few names in the annals of antiquity, or in the wide circle of classic literature, more celebrated than that of Aristotle. In an age which could boast of Demosthenes, Socrates, and Plato, and in a country distinguished beyond all others for the cultivation of knowledge, he bore away the palm of genius from every competitor; and although there are many departments of science wherein his labours have been surpassed by those of modern philosophers, there are others in which his profound erudition, and his amazing intellectual exertions, remain hitherto unrivalled. His comprehensive mind embraced every subject which then formed a part of scholastic study, or fell within the range of human contemplation. Accordingly, of all the ancient Greek writers, he is at once the most voluminous, diversified, and obscure. His works, like those of many other classic authors, have descended...
