## Solar Trillions: 7 Market and Investment Opportunities in the Emerging Clean-Energy Economy

By Tony Seba

Tony Seba. Paperback. Book Condition: New. Paperback. 294 pages. The Energy industry will make 382 trillion over the next 40 years. In this seminal book, technology strategy guru and visionary Tony Seba reveals market opportunities worth at least 35 trillion of that vast market by 2050. The clean-energy revolution is not in the future. It has already begun. Just as the PC revolution transformed computing while creating a new information-based economy, the clean energy leaders will turn the energy world upside down, creating a new energy economy while creating untold wealth for the entrepreneurs, investors, and countries who win the race. Solar Trillions shows why solar is the only clean energy source that can scale to meet global needs and explores the disruptive characteristics that make solar technology inevitable. Here are the seven amazing opportunities he explores and some equally amazing facts about energy. Opportunity 1: Utility-Scale Solar: 9.0 trillion- To provide all of America's electricity today, solar power would need a single 100-by-100-mile square of desert. This is less than 10 of the land that the oil and gas industry uses in America today. - Most of the solar power will come not from photovoltaics but from Concentrated Solar...
