

Unstable Ideas: Temperament, Cognition, and Self

By Jerome Kagan

Harvard University Press. Paperback. Book Condition: New. Paperback. 328 pages. Dimensions: 9.4in. x 6.3in. x 0.8in. In this work, Jerome Kagan demonstrates that innovative research methods in the behavioural sciences and neurobiology, together with a renewed commitment to rigorous empiricism, are transforming our understanding of human behaviour. Kagan argues that behavioural scientists have reached less-than-satisfactory answers to the fundamental questions about temperament, cognition and the self because they have failed to appreciate the biases inherent in their frame of reference and the limitations of their investigative procedures. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
