FORECASTING DEMAND FOR CIVILIAN PILOTS: A COST SAVINGS APPROACH TO MANAGING AIR FORCE PILOT RESOURCES

Biblioscholar Okt 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - The purpose of this research was to create a model that could potentially predict demand for military trained pilots in the airline industry. Specifically, this thesis sought to answer the research question addressing whether or not military trained pilots are currently more in demand or less in demand. The research questions were answered through a comprehensive literature review,...

Reviews

I just began looking over this ebook. It really is writter in straightforward words and phrases instead of hard to understand. You wont truly feel monotony at whenever you want of the time (that's what catalogues are for relating to should you request me).

-- **Harrison Mayert**

Here is the very best publication we have study right up until now. It is amongst the most incredible publication we have read through. I am very easily could get a satisfaction of reading through a created publication.
